

# How Has Protocol 5 Influenced the Rise of Global Despotism and the Antichrist?

Sixbert SANGWA • July 17, 2024

As we navigate the complexities of modern geopolitics, it is essential to examine the underlying forces that shape our world. One such force, often overlooked, is the concept of despotism, as outlined in Protocol 5 of the Protocols of the Learned Elders of Zion. The Protocols of the Learned Elders of Zion is an elaborate document outlining a long-term plan to destroy humanity and deliver the world to the Antichrist—an end-time totalitarian global government also prophesied by the Bible. The document consists of 24 protocols, and in Protocol 5, the secretive group leading this world has planned to use *Despotism and Modernism*, bringing us to the rise of the Antichrist as foretold in the Scriptures. This brief article aims to humbly explore the key elements of Protocol 5, titled "*Despotism and Modernism*," and how it has influenced the course of human history.

## Centralized Global Administration

In Protocol 5, the authors advocate for an intensified centralization of government, where all actions of political life are regulated mechanically by new laws, gripping communities in an iron fist and withdrawing individual liberties. They argue that this despotism is necessary to maintain control in a world where corruption and moral decay have become rampant. The document envisions a despotic rule capable of swiftly suppressing any opposition.

Historically, this approach has been implemented through various means, such as the establishment of powerful state institutions and the enactment of strict laws that limit personal freedoms. Over time, governments have increasingly centralized power, often justified by the need to combat corruption and maintain order. In contemporary times, we see this trend in the form of globalization efforts, where international bodies like the United Nations, the World Trade Organization, and the European Union work towards increasing global cooperation and reducing national sovereignties in favor of centralized, international rule. These efforts can be seen as steps toward a New World Order, a term often associated with the Illuminati's goal of global domination. Additionally, global tech companies are controlled by the same elite groups, further tightening their grip over information, communication, and public opinion. This centralization is also evident in the rise of surveillance technologies and data collection practices, which governments use to monitor and control their populations more effectively.

The Bible warns of the dangers of unchecked power: *"Power tends to corrupt, and absolute power corrupts absolutely"* ([Luke 12:48](#)). However, the Antichrist's reign is prophesied to mark the end of human history in [Revelation 13:7-8](#), where Scripture foretold of this global administration having authority over every tribe, people, language, and nation, and all inhabitants of the earth will worship him. This aligns with the concept of a centralized global governance where power is concentrated in a single authority, rife with moral decay and abominations.

## Undermining of Faith into a True God

Protocol 5 describes a deliberate strategy to undermine faith in God and respect for traditional authority. By promoting individual rights and freedoms, the document claims to have demystified and delegitimized the divine right of kings, ultimately leading to the erosion of traditional power structures.

Using a combination of propaganda, subversion, and orchestrated revolutions, this secret group systematically dismantled monarchies across Europe and beyond. They exploited social and economic unrest, manipulated public opinion, and supported revolutionary movements to overthrow kings and establish republics. By wielding the concept of democracy as a tool, they replaced divine authority with secular governance, further weakening traditional monarchies. Moreover, the group leveraged the chaos of World Wars I and II to accelerate their agenda. These wars not only toppled several royal families but also paved the way for the establishment of international bodies like the United Nations. Seen by many as their pilot project for global governance, the UN aims to centralize power and control under a singular international authority.

Regarding the erosion of true faith in God, in the modern world, we observe a trend towards inter-faith dialogues and ecumenism movements. While these efforts aim to promote understanding and unity among different religious groups, they can also dilute the distinctiveness of Christian doctrine. The Illuminati is often believed to be behind such movements, with the goal of weakening Christianity and promoting a one-world religion. This trend aligns with the biblical prophecy of the great prostitute in [Revelation 17](#), which describes a false religious system that leads people away from true faith in God. [Revelation 17:4-5](#) describes the woman, symbolizing this false religion, as being adorned with gold and precious stones, indicating a form of religion that appears attractive but is ultimately deceitful and corrupt.

In addition to inter-faith dialogues and ecumenism, other strategies include creating false religions, distorting Scriptures, and using false teachers and false prophets. These tactics are designed to confuse and mislead believers, drawing them away from the truth of God's Word and towards doctrines that serve the interests of the elite. By undermining the authority of the Bible and promoting alternative spiritualities, these false teachings can weaken the foundation of Christian faith and prepare the way for a unified global religion under the control of the Antichrist. Furthermore, promoting liberal theology and a pluralistic view of God has contributed to the fragmentation of belief systems, resulting in thousands of religions today. This pluralism dilutes the truth of Christianity, leading many astray and making it easier for a one-world religion to gain acceptance.

The Bible warns, *"For there is nothing hidden that will not be disclosed, and nothing concealed that will not be known or brought out into the open"* ([Luke 8:17](#)). This underscores the eventual exposure of such deceptive practices.

## Economic Control and Monopolization

Another critical strategy outlined under Protocol 5 is the control of the global economy through the establishment of monopolies and the manipulation of capital. By centralizing economic power, the document outlines a plan to dominate industry and trade, thereby oppressing the people.

Today, the concentration of economic power in the hands of a few multinational corporations and financial institutions is a clear reflection of this strategy. Entities like the International Monetary Fund (IMF), the World Bank, and major global banks are often perceived as being controlled by the Illuminati, wielding significant influence over global markets and political systems. These institutions can shape economic policies and decisions, often prioritizing the interests of the elite over those of the general populace. Furthermore, they manipulate markets to cause inflation and deflation for their benefits, exacerbating economic instability and enriching themselves at the expense of the masses.

The Bible prophesied this concentration of economic power, indicating that no one could buy or sell without the mark of the beast ([Revelation 13:17](#)). This mirrors today's trends where the economy is controlled by a few individuals, making it increasingly difficult to earn a living. Many find themselves working as virtual slaves for this elite group, often having to engage in ungodly practices to secure jobs, win tenders, and earn a living by aligning with the plans of these powerful entities. [1 Timothy 6:10](#) underscores the dangers of economic control and the pursuit of wealth at the expense of spiritual and moral values, serving as a warning to Christians today.

## Manipulation of Public Opinion and Distraction

Protocol 5 also reveals a strategy to debilitate the public mind through criticism, distracting it from serious reflections and leading it away from resistance. The authors of the protocol proposed establishing show institutions that would give eloquent proof of their benefit to progress, while orators would speak at length, exhausting the patience of their hearers and producing abhorrence of oratory.

In today's media landscape, public opinion is often shaped by an overwhelming amount of information, much of it contradictory, leading to confusion and apathy. The proliferation of news channels, social media platforms, and entertainment can distract people from critical issues, making it difficult to discern truth from falsehood. Christians are again warned against conforming to the pattern of this world ([Romans 12:2](#)); thus, spiritual discernment is essential in an age of information overload and media manipulation.

## Creation of Chaos and Division

The authors of Protocol 5 also planned to multiply national failings, habits, passions, and conditions of civil life, making it impossible for anyone to understand the resulting chaos. This, they believed, would lead to discord in all parties, dislocate collective forces, and discourage personal initiative.

Modern geopolitical strategies often involve fostering division and conflict within and between nations. By promoting ideological, racial, and religious divisions, powerful entities can prevent unified resistance to their control. Additionally, they create and sponsor armed groups and terrorist organizations to incite conflicts that favor their global elite agenda. This strategy of *"divide and conquer"* has been employed throughout history to maintain power over diverse populations.

## Conclusion

Protocol 5 of the Learned Elders of Zion outlines a chilling vision of despotism, manipulation, and control. The overall plan in Protocol 5 is to create a Super-Government Administration, a bogey that will subdue all nations of the world without violence. This concept resembles the idea of a global superpower, an overarching authority that exerts control over all nations, aligning with the New World Order often associated with the reign of the Antichrist. [Psalm 2:2-3](#) contains a prophetic vision highlighting the ultimate futility of human attempts to establish a global dominion in opposition to God's sovereignty. As we navigate the complexities of modern geopolitics, it is essential to remain vigilant, recognizing the dangers of unchecked power and the importance of promoting unity, understanding, and individual freedom. The Apostle Paul reminds us, *"For we do not wrestle against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this age, against spiritual hosts of wickedness in the heavenly places"* ([Ephesians 6:12](#)). Let us stand firm in our faith, seeking God's guidance and wisdom as we navigate the complexities of the modern world. We stand closer than ever to the fulfillment of these prophecies, and it is crucial to stay aware and prepared.
